

Figuring Out the Issues

Announcer:

This year MERIL celebrates 20 years of providing smiles. Listen as we talk to DeLinda Kelly, Director of Communications and Transition for MERIL through an interpreter's voice as she shares with us about the services provided by MERIL.

DeLinda:

My primary focus is providing services to people that have a hearing loss or vision loss. Also individuals who don't have the ability to communicate verbally. For example someone whose had a stroke or throat cancer, cleft palate, those sort of things.

We'll work on figuring out what are some issues that you have, or things that you're struggling with. . . . are you struggling to hear an alarm clock or are you missing what people are saying in large meetings and so we then find resources to match...how do we solve the issues and the barriers that you are experiencing?
